[Github](#) [Linkedin](#) [Portfolio](#)

Skills

Language: Javascript, Typescript, PHP
Technology and Framework: ReactJS, Nodejs, MongoDB, Express js, NextJS, Laravel (familiarity), WordPress Theme Development(Midlevel)
Tools: Git, Firebase, Netlify, Vercel, VS Code, Atom

Objective:

I'm a Frontend Web Developer passionate about making error-free websites with 100% client satisfaction. I have a passion for learning new technologies.

Projects

MyGov: Implementation Assistant   [Live Link](#)   [Training Link](#)   [Stage Link](#)

UY Systems Ltd.
Project Name: MyGov ITSM Digitization.
Company Name: Aspire to Innovate (A2i).

- Form build up.
- Template making.
- Government service digitization.
- Customer support Service.

Tread Venture CMS Based: (NextJS Project)   [Live Link](#)   [Github Link](#)

In a Next.js project with CMS functionality, you'll likely have a protected route for the dashboard that requires users to log in before accessing it. Here's a brief overview of how you can implement this:

Features:

- Authentication Setup: Implement user authentication using a library like NextAuth.js or any other authentication provider. Set up login functionality where users can authenticate themselves.
- Create a protected route for the dashboard page. This route should only be accessible if the user is authenticated. You can achieve this by using a Higher Order Component

(HOC), such as withAuthenticator, or by manually checking authentication status before rendering the dashboard component.

- Dashboard Page: This is the main page users can access after logging in. Here, you can display various features and functionalities of your CMS, such as creating, editing, or managing content.

Experience

UY Systems LTD   ShopUp
Web Developer   Front-End Web Developer
Duration:6 months [Oct23-Running]   Dur:8 months [Feb23-Sep23]

Education

BSc in Engineering   Diploma in Engineering (2017-2021)
Green University of Bangladesh   Dhaka Polytechnic Institute
Department of CSE   Computer Science & Engineering

Address:

Present Address: **Permanent Address:**
Shewrapara,Mirpur 1206   District: Kurigram
Road no:06   Thana: Rajarhat
House no: 312   PO: Nazimkhan Village: Momin

Activities

- Participated in the WYSD -2022 programming contest
- Achieved best-based project in a class project
